Subject: RE: ALERT - Seralini et al listed as speaker for the AFR Pesticide Conference in Nairobi in June 2019 at Safari park

Morning colleagues,

In case you haven't seen this - <https://www.worldfoodpreservationcenterpesticidecongress.com/>

The list of anti-GMO speakers **including Seralini, Hans Herren etc.**..and sponsors of this conference: *1st All Africa Congress on Synthetic Pesticides, Environment, Human and Animal Health* in Nairobi in June is a big concern and we need to strategize. Holding it in Kenya at this time will be very disruptive..

Any thoughts?

Thanks and regards,  
Margaret
