Subject: Re: Following up on Rob Wager introductions

Dear Shoshana, Jay,

A quick update: I had earlier on started preparing some meetings for Rob through KUBICO- Kenya University Biotechnology Consortium and around one of our Universities near the Safari Park hotel where the Agro-ecology conference will be taking place but midway learnt NBA had already sent him an invitation. I thus abandoned the process and moved into other things.

We appreciate Rob's contribution to the efforts on the ground and will try and see what is possible within the short time remaining. I was hoping to have a phone conversation with Rob today but got some delay with evening calls. Will definitely get in touch tomorrow.

Rob: Welcome to Kenya! Looking forward to talking to you tomorrow, possibly 3pm Nairobi time? Let me know. I tried writing you a text message today but not sure you got it?

Thanks and regards,

---

Margaret
